

Help Bring A Breastfeeding License Plate To Virginia!

www.VABreastfeedingPlate.com

WHAT: We are collecting applications to begin the legislative process necessary in order to have the plate be adopted by the DMV and go into production. We must collect 450 pre-paid applications by late November 2016 in order that our sponsor, Delegate Jay Leftwich of Chesapeake, can take our bill to the 2016 General Assembly which begins in January 2017.

HOW: In January 2017, after collecting 450 paid applications, our license plate legislation is submitted by our Delegate Sponsor to the General Assembly for consideration. After filing, it would first need to be favorably passed out of the transportation committee before being brought before the General Assembly at large. Once our license plate bill is passed, it moves on to the Governor for signing. Only after the Governor signs our bill, hopefully by the summer of 2017 at the latest, will the applications (and money) be submitted to DMV so that our plate can be produced. We would then begin to see this plate on cars in 2017. *But, none of this happens unless we get 450 prepaid applications.* If our efforts fail, your money will be refunded.

NOTE: It is important to understand that even though you filled out an application for this plate, you must continue to keep your registration renewals current with DMV. All applicants must have a vehicle currently licensed in the state of Virginia.

INSTRUCTIONS: Please turn in an application and payment, though email or snail mail

- 1) **APPLICATION:** If a form is not attached to this flyer, you may find the form on our website at <http://vabreastfeeding.org/vas-breastfeeding-license-plate/> Fill out the form completely, including the signatures of all owners of the car.
- 2) **YOU WILL NEED:** To be able to fill out the form completely, you will need the following at hand: Owner(s) name(s), current plate number, current plate type, current plate expiration date, Vehicle Title Number, and VIN (vehicle identification number). These can be found on your current vehicle registration card. If there is more than one owner, both co-owners must sign the form.
- 3) **COST:** \$10 if you are applying for standard plates and \$20 if you are applying for personalized plates. (A personalized plate is one on which you have requested a special word or letter/number sequence other than what DMV ordinarily assigns). This is the amount that the VA Breastfeeding Task Force will need to submit to DMV at the completion of the legislative process so that the plates can go into production. We will hold these funds until that time and your money will be refunded if our legislative effort fails.
- 4) **MAIL** completed and signed application and your check to the VABFTF, *PO Box 35379, Richmond, VA 23235*. **Do not send the application directly to DMV.** If you prefer, you may email your completed and signed application to the VABFTF at vabtf@gmail.com. Check our website at www.vabreastfeedingplate.org for Facebook group link, e-newsletter sign-up, updates on the license plate and for a PayPal link to submit payment directly.

Thank you for Supporting Virginia Families!
